Dry Manure Applicator Certification Workshops Offered by Extension

AMES, Iowa---Iowa State University Extension and Outreach in cooperation with the Iowa Department of Natural Resources (DNR), will offer manure applicator certification workshops for dry/solid manure operators on six different dates and locations in February. These workshops meet manure applicator certification requirements for both confinement site manure applicators and commercial manure applicators who primarily apply dry or solid manure.

“The information in this workshop will benefit not only those needing certification, but anyone using dry or solid sources of manure as a nutrient resource,” says Dan Andersen, assistant professor, ISU Ag and Biosystems Engineering and coordinator of the manure applicator certification program

The workshops are free to attend and open to all. Applicators will be required to submit certification forms and fees to the Iowa DNR to meet manure applicator certification requirements.

Please register for one of the workshops by calling the number listed with the selected site. All workshops begin at 1:00 p.m.

- Feb. 13, Washington County Extension Office, Washington. Call 319-653-4811 to register.
- Feb. 19, Adair County, Warren Cultural Center, Greenfield. Call 641-743-8412 to register.
